PLEASE NOTE:

As we offer such a vast selection of granite materials some designs and particularly the more exotic colours may not always be available from stock. Therefore, when ordering please speak with your Warriston Consultant for availability.

The colour of all materials shown on these pages are as accurate as lithographic reproduction will allow. Also the colour of certain materials may vary in their natural state.

LifeGem Created Memorial Memorials

Probably the most versatile memorial to be made.

A highly detailed memorial memorial created from the ashes, either the cremated remains of your loved one.

Each LifeGem comes with a certificate detailing the unique characteristics of the very personal memorial that never has to leave your side.

PHONE: 0800 16 91 070

The Aquem Memorial Clock - Time tells what heaven cannot

If you are undecided what to do with the ashes, they can be placed within this beautiful Clock that has an integral urn.

The clock is made from the finest materials available and provides an alternative to having the ashes placed in an urn in the home.

There is a photo on the face of the clock in which a picture or name can be placed.

Take your memories home

To complement any memorial take your memories home.

We can frame your favourite photograph, state of the art engraving or highly polished black granite or glass.

Please see page 57 or call your Memorial Consultant for further ideas.

All of the unique range of memorials available under the umbrella which will not only celebrate the unique life of a person, but also specifically designed to meet the wishes of the individual family for use to keep the ashes of a loved one close to the family.

It is for you, whether a creation of sensitive delicacy, with the ability to be used on the altar, home or a working garden, regardless of the weather, your loved one will be securely and lovingly with them forever.

How to have your loved one's ashes put to rest in a beautiful way. The choice is yours. You can have your ashes placed in a traditional or special place in your home, either with other family or friends.

Then finally, when the time comes your loved one will rest close to you, which will be created with your loved one to be eternal or combined together - perhaps in the beautiful shade of your garden.

They will also meet the needs of the individual who perhaps is placed in a place that is thought of as their own, but the memorial is still a part of the family and the loved one.

Other memorials are made in polished white marble, outdoor memorials are made in unpolished white marble, natural stone or a mix of all of these.
